Redevelopment Capital Assistance Program Grants Awarded in PA

The Stradley Ronon Government & Public Affairs practice group helped to secure $3 million in Redevelopment Capital Assistance Program grants for firm clients this last budget process in Harrisburg, Pennsylvania. Governors have traditionally awarded the RACP grants, which are designated for financial assistance to brick and mortar projects, at least once per fiscal year. Our Government Affairs team worked closely with Gov. Tom Wolf's senior staff, a cabinet secretary and three state senators to secure the grants.
